CLIA-Waived Hemoglobin and Hematocrit

Using a single drop of whole blood, Stanbio's CLIA Waived HemoPoint® H2 system provides precise hemoglobin and calculated hematocrit in less than a minute. The HemoPoint® H2 touch screen is easy to learn and operate. Hemoglobin testing is quick and easy reducing personnel training and improving workflow efficiency. Recall the last 100 results with the touch of a button. Point-of-care hemoglobin testing is routinely performed in OB/GYN, family and pediatric practices along with public health clinics.

Portable HbA1c System

A1CNow+ is a portable, easy-to-use system that provides immediate access to lab-quality NGSP* certified HbA1c results in minutes. Improves the overall efficiency of diabetes care by reporting HbA1c values during the patients office visit. It provides rapid HbA1c results with precision and accuracy equivalent to certified laboratories. Fast, easy measurement of HbA1c enables people with diabetes and their healthcare providers to make immediate diabetes management decisions and to help optimize and calibrate therapy with the goal of improved outcomes.
