

It is inevitable.

Eighty-percent of
your patient base
will suffer from
hemorrhoids
in their lifetime.

That usually means 80% of your patients will be sent to someone else for treatment.

That doesn't have to be.

Ultroid® is FDA-Cleared

It is the painless hemorrhoid treatment that can be performed in your office in **6 - 12 minutes** without special prep or anesthesia. Reimbursement rates often rapidly recover investment costs.

As a **non - invasive procedure**, there is no required healing time. Patients leave your office and resume normal daily activities. No post procedure care is required.

Covered by Medicare and most major insurers.

... and it's painless.

***Hemorrhoids hurt.
Ultroid® doesn't.***
